Designed to create awareness on organization's emissions

INTRODUCTION

GHG have become more than just purely environmental issues. Learn more about your organization's carbon footprint. They are directly affecting our economies and daily lives. Act now to save this planet for our next generations. This course is designed for those who want to acquire information of GHG emissions according to ISO 14064.

WHO SHOULD ATTEND?

- Organizations who are conscious about public image
- Management Representatives of Management Systems in an organization
- Organizations who are keen to know about their GHG emissions
- Organizations who are keen to make a difference

COURSE OUTLINE

- Impact of global warming and climate change
- Key terminology
- National and international climate change policies
- Objective, scope & benefits of ISO 14064 / GHG Protocol Corporate Accounting & Reporting Standard

BENEFITS OF THE COURSE

- Better understanding on the impact of organizations producing GHG
- Establish a basis for measuring and managing energy-use and GHG emissions
- Create a framework for promoting and implementing best practices
- Engage the entire organization in better energy use and lower GHG emissions
- Capture competitive advantage in the marketplace
- Lower operating cost due to energy savings
